Shopfittings

# WHO WE ARE

At Dinya Designs we provide shop fitting solutions to small and large businesses as well as storage solutions for the home or office.

For many years we researched and worked directly with manufacturers to produce a range of high-quality products at an unmatched price.

Our commitment to quality and customer service has allowed us to work with the likes of Harvey Norman, Barbeques Galore and ARB.

Dinya was built on a foundation of ethics, hard work and respect. This is what we provide to all our customers. We have over 40 years of experience in the fields of manufacturing, construction, logistics and continuous improvement.

We look forward to working with you.

## The Dinya Advantage – E0 Environmentally Responsible Slatwall

Dinya Shop Fittings is committed to sustainable and environmentally friendly building practices.

All of our Slatwall products exceed the Australian Standard E1 and are now made from MDF rated E0. E0 MDF contains half the formaldehyde of E1 board. Formaldehyde vapors are flammable, explosive and toxic. Prolonged exposure has been linked to an increased risk of cancers.

Dinya Shop Fittings recognizes the environmental and commercial advantages that low formaldehyde MDF boards can add to the projects, and is proud to have worked with its manufacturers to provide this superior product for its Australian customers.
