Dark Walnut Landscape/Horizontal Slatwall with 100mm spaced grooves and 1 half groove and Black aluminium inserts. Open up a world of opportunities by integrating our Slat-Walls onto your wall. Slat-Wall is a universal world standard and the number of accessories is infinite, like the suspensions of shelves, hooks, tiles, art, office tools, and meeting room tools. Slatwall also known as slot wall, slat board, or slat panel, is a panel made with horizontal grooves configured to accept various merchandising accessories. The standard spacing of these grooves is 100mm (on-center), but this spacing can be changed to accommodate merchandising density. Panels are made from MDF (medium density fiberboard) with melamine paper pressed onto one side, machine grooved, and finally finished off with our 1mm thick aluminium extrusions inserted into the grooves and meet the demands of store planners and merchandisers worldwide. The standard size of this Slatwall board is 1200mm x 2400mm, with the grooves across the 2400mm width referred to as "Landscape" Please note Australian standard for MDF is E1, for your safety we only use E0 boards (better than the Australian standard) cutting back on the formaldehyde levels which can be very harmful. **Important Notice:** Please note that for orders of **2 or fewer slatwall panels**, or if a **tailgate drop-off** is required, an **additional \$88 charge** will apply. If you have any questions or need clarification, feel free to contact us before placing your order. Do not forget to purchase a [joining insert](#) if installing slatwalls on top of each other.

An angled steel frame electroplated black. light and compact when flat packed making it ideal for Mid-floor promotions, exhibition events + Retail Environments. Run them down side by side as they can also be bolted together! Easy to assemble. Has existing holes to be easily bolted to the floor or wall for extra support. Easy access to screw the Slatwall from behind for support and a better finish. Has adjustable legs for perfect alignment. (**Slatwall sold separately**) Please note if not placing against a wall for support, we recommend securing to the floor with dyna bolts using the existing holes in the bottom rails or weighing the frame down.
