Versatile display configuration

Customizable Configuration

Application Scope

Suitable for fashion retail stores, boutiques, department stores, clothing showrooms, pop-up shops, exhibition spaces, commercial merchandising areas and home use for organised garment and accessory presentation.

Assembly Instructions

PRE-ASSEMBLY INSTRUCTIONS:

Before beginning assembly, please read these instructions carefully to prevent injury, component damage, or incorrect installation. Ensure all parts, fittings, and required tools are available before starting. Assemble the product on a clean, flat, and stable surface with enough space to safely lay out all components. Handle each part carefully and follow the steps in order for safe and proper assembly. After assembly, inspect the clothing rack carefully to ensure all parts are firmly connected

TOOLS REQUIRED

M5 Allen key

LETTER	DESCRIPTION
A	BASE FRAME
B	POST
C	TOP HANGING BAR
D	EXTENSION POST - OPTIONAL
E	WOODEN PANEL - OPTIONAL
F	LEVELING FEET
G	COUNTERSUNK SCREWS
H	LONG SCREWS
I	HANGRAIL - OPTIONAL

Clothing Rack Assembling Guidelines

- Carefully unpack all clothing rack components, screws, fittings, and optional accessories from the packaging.
- Check every part against the parts list to ensure all required components are available before assembly.
- Place the base frame on a clean, flat, and stable surface to begin installation.
- Install the leveling feet into the bottom of the base frame and adjust them if required.
- Attach the vertical upright posts to the base frame using the supplied screws and fittings.
- Ensure both upright posts are straight, properly aligned, and securely fixed.
- Insert the extension posts if they are required for the selected rack height or configuration.
- Secure the top hanging bar between the vertical upright posts.
- Tighten the hanging bar screws firmly using the M5 Allen key provided.
- Place the wooden board onto the lower frame section if included in the selected model.
- Insert the optional hangrail if required for the chosen display setup.
- Tighten all screws, check the rack for balance and stability, then move it carefully to its final display position.
