

SINGLE SIDED VOLCANO PEGBOARD GONDOLA SHELVING

Instruction Manual

Flexible Merchandising
Shelves, Hooks & Fittings

Durable Finish
Commercial Retail Structure

Integrated Base Shelf
Additional Display Space

Brief Introduction

Single-sided pegboard gondola designed by Dinya Designs Shopfittings for professional retail merchandising. It features a durable matte finish, offering a clean, strong and flexible display solution for wall-side or aisle-end placement.

Its single-sided structure helps organise products clearly in limited retail spaces, while the pegboard display system supports compatible hooks, shelves and fittings for showcasing a wide range of retail products.

Product Appearance

Highlight

Durable retail construction

Flexible merchandising layout

Customizable Configuration

Modern and sleek design

Clean, modern & minimalist design

Ideal for store centre aisles

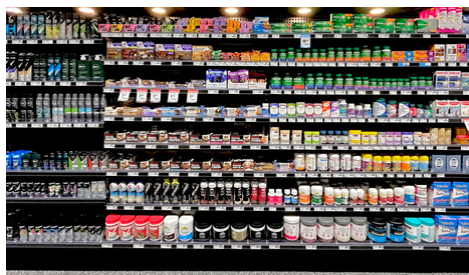

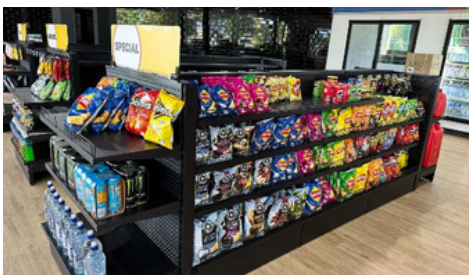

Flexible layout for different product

Suitable for shelves and hooks

Application Scope

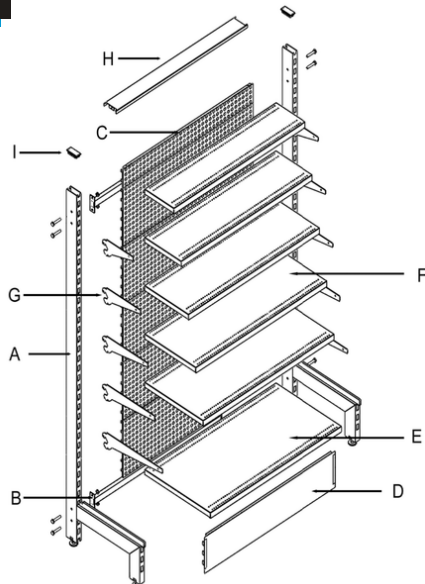

Suitable for various sectors including upscale department stores, supermarkets, 3C retail, convenience stores, industrial, and warehousing.

Assembly Instructions

PRE-ASSEMBLY INSTRUCTIONS:

Before beginning assembly, please read these instructions carefully to prevent injury, component damage, or incorrect installation. Ensure all parts, fittings, and required tools are available before starting. Assemble the product on a clean, flat, and stable surface with enough space to safely lay out all components. Handle each part carefully and follow the steps in order for safe and proper assembly. After assembly, inspect the clothing rack carefully to ensure all parts are firmly connected

TOOLS REQUIRED

14mm Open
Spanner

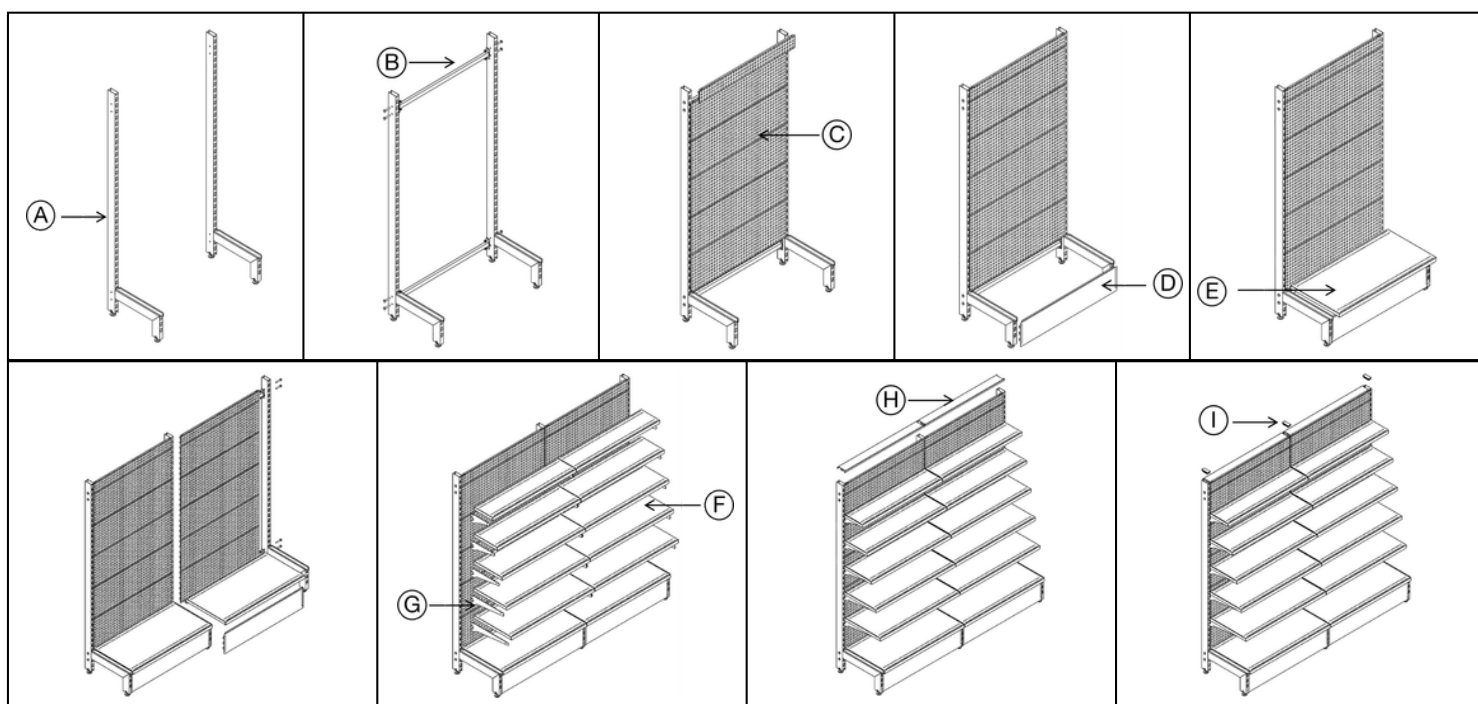

M8 Allen key

Gradienter

LETTER	Description
A	UPRIGHT
B	SUPPORT BAR
C	BACK PANEL
D	FRONT KICKER
E	BASE SHELF
F	UPPER SHELF - OPTIONAL
G	BRACKET - OPTIONAL
H	TOP COVER - OPTIONAL
I	PLASTIC CAP - OPTIONAL

Gondola Assembling Guidelines

- Read all instructions carefully and confirm the assembly area is clean and stable.
- Check all panels, fittings, screws, hardware, and tools before starting installation.
- Prepare the required tools, including level, M8 Allen key, and 14mm open spanner.
- Place both upright posts correctly on a flat working surface before fixing.
- Install the top and bottom support bars securely between the upright posts.
- Fit the back panels from bottom to top, keeping each panel aligned.
- Attach the front kicker and base shelf securely to the lower frame.
- Connect any add-on rack section required for the selected gondola layout.
- Fit the brackets and upper shelves at the required display height.
- Install the top cover and plastic caps for a clean finished appearance.
- Tighten all screws, fittings, brackets, and support connections after alignment.
- Use a level to confirm the gondola is straight, balanced, and stable.
