

DOUBLE SIDED GONDOLA SHELVING

Instruction Manual

Flexible Merchandising
Shelves, Hooks & Fittings

Durable Finish
Commercial Retail Structure

Double-Sided Display
Maximum Merchandising Space

Brief Introduction

Double-sided gondola by Dinya Designs Shopfittings for professional retail merchandising. It features a durable finish, offering a strong, practical and flexible display solution for centre-aisle placement.

Its double-sided structure maximises product visibility and display space, while the shelving system supports compatible hooks, shelves and fittings for showcasing a wide range of retail products.

Product Appearance

Highlight

Durable retail construction

Double-sided merchandising

Customizable Configuration

Modern and sleek design

Clean, modern & minimalist design

Ideal for store centre aisles

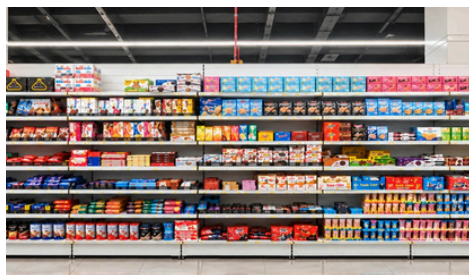

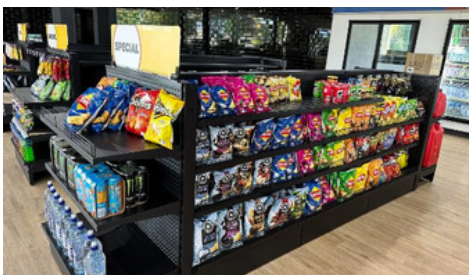

Flexible layout for different product

Suitable for shelves and hooks

Application Scope

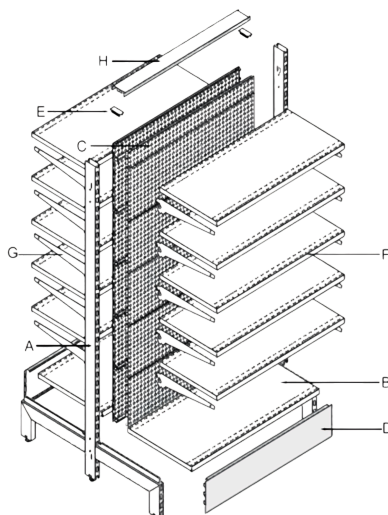

Suitable for various sectors including upscale department stores, supermarkets, 3C retail, convenience stores, industrial, and warehousing.

Assembly Instructions

PRE-ASSEMBLY INSTRUCTIONS:

Before beginning assembly, please read these instructions carefully to prevent injury, component damage, or incorrect installation. Ensure all parts, fittings, and required tools are available before starting. Assemble the product on a clean, flat, and stable surface with enough space to safely arrange all components. Handle each part carefully and follow the steps in order for safe and proper assembly. After assembly, inspect the double-sided gondola to ensure all components are securely fitted.

TOOLS REQUIRED

14mm Open
Spanner

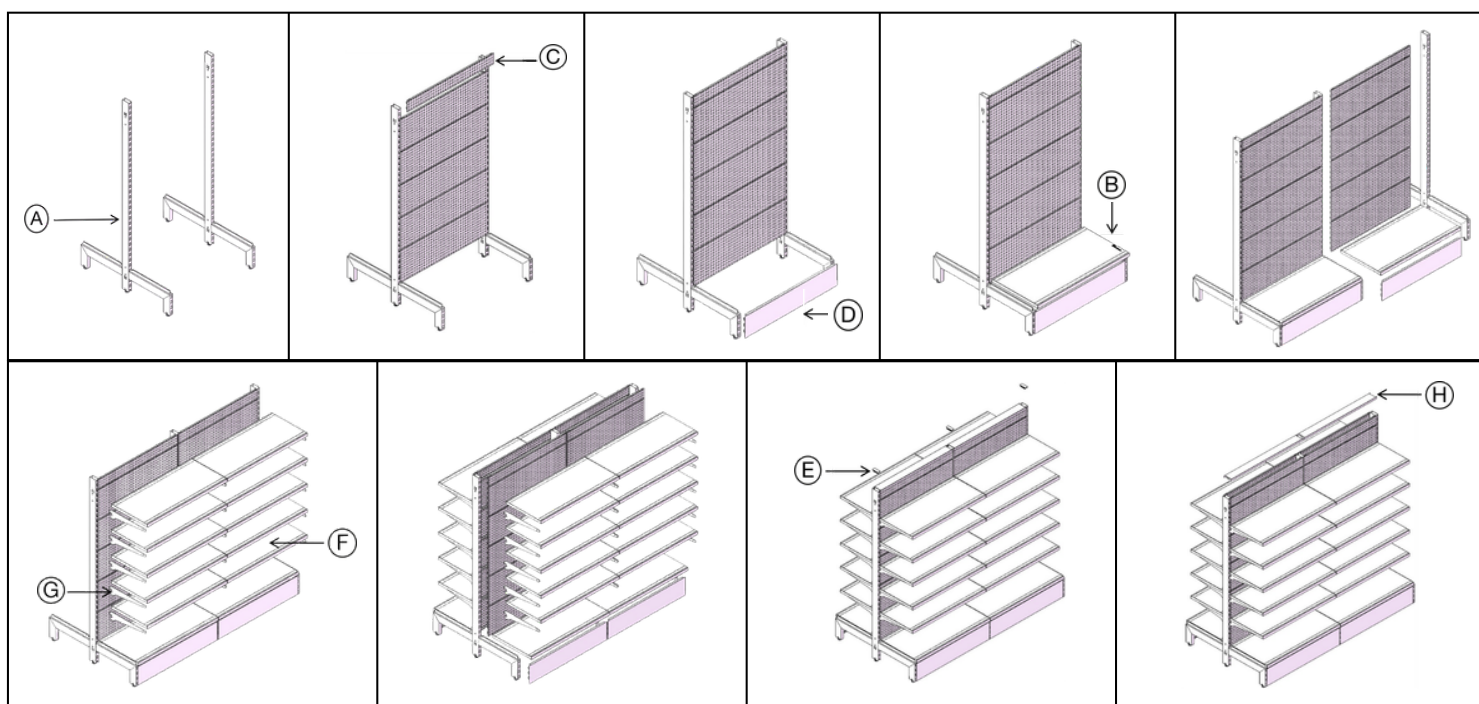

M8 Allen key

Gradienter

LETTER	Description
A	UPRIGHT
B	BASE SHELF
C	BACK PANEL
D	FRONT KICKER
E	PLASTIC CAP - OPTIONAL
F	UPPER SHELF - OPTIONAL
G	BRACKET - OPTIONAL
H	TOP COVER - OPTIONAL

Gondola Assembling Guidelines

- Read all instructions carefully and ensure the assembly area is clean and stable.
- Check all panels, fittings, screws, hardware, and tools before starting installation.
- Prepare the required tools, including a spirit level, M8 Allen key, and 14mm open spanner.
- Position the two upright posts correctly on a flat and stable working surface.
- Install the back panels securely between the upright posts, keeping them aligned.
- Attach the front kickers and base shelves securely on both sides of the gondola.
- Connect any additional bay sections required for the selected gondola layout.
- Fit the brackets and upper shelves at the required heights on both sides.
- Repeat the shelving installation process on the opposite side of the gondola.
- Install the top covers and plastic caps for a clean, finished appearance.
- Tighten all screws, fittings, brackets, and support connections after alignment.
- Use a spirit level to confirm the gondola is straight, balanced, and stable.
